EDUCATION

- Vellore Institute Of Technology, Bhopal** Sehore, India
Bachelor of Technology - Computer Science and Engineering; GPA: 8.41 July 2021 - June 2025
- Bal Bharti Vidhyapeeth Sr. Sec. School** Sujargarh, India
Higher Secondary; Overall Percentage: 82.80 July 2018 - June 2019
- Bal Bharti Vidhyapeeth Sr. Sec. School** Sujargarh, India
Secondary; Overall Percentage: 75.83 July 2016 - June 2017

SKILLS SUMMARY

- Languages:** JAVA, Python, HTML, CSS, JavaScript, SQL
- Frameworks:** Spring Boot, Scikit, NLTK, TensorFlow, Keras, Flask, NodeJS, ReactJS
- Platforms:** AWS, Web, Windows
- Soft Skills:** Leadership, Event Management, Team Work, Writing, Public Speaking, Time Management

EXPERIENCE

- Internship Program - SmartInternze** Remote
(Part-time) Aug 2023 - Nov 2023
Participated in a hands-on Internship program focused on machine learning, applying theoretical knowledge to real-world projects. Enhanced technical skills and gained industry insights through practical experience. Built a professional network and collaborated with experts in the field.

PROJECTS

- Java - Web API Using Spring Boot (Java, Web API, Spring Boot):** (Work in progress)
 - Developed a Java-based Web API using Spring Boot to provide RESTful services for efficient data management.
 - Designed and implemented various endpoints for CRUD operations.
 - Leveraged Spring Data JPA for seamless database interactions.
 - Ensured secure authentication with Spring Security.
 - Tech:** Java, Spring Boot, Web API
- Recommendation System (Machine Learning, API):** (April '23)
 - Built a movie recommendation system using collaborative filtering and content-based techniques.
 - Suggested personalized movie recommendations based on user preferences and behavior analysis.
 - Tech:** Python, Pandas, Scikit-learn, Machine Learning
- Online Payment Fraud Detection (Machine Learning, Web Development):** (August '23)
 - Developed a system for detecting fraudulent transactions using machine learning algorithms.
 - Analyzed user behavior and transaction patterns to identify potential fraud.
 - Implemented real-time anomaly detection to improve accuracy and reduce false positives.
 - Tech:** Python, Machine Learning, HTML, CSS, JavaScript
- Comment Analyzer (Deep Learning, Web Development):** (May '23)
 - Created a comment analyzer using natural language processing (NLP) techniques.
 - Classified and analyzed user comments for sentiment and inappropriate content.
 - Successfully identified spam, toxic language, and sentiment trends for enhanced content moderation.
 - Tech:** Python, Machine Learning, Deep Learning, Streamlit

ACHIEVEMENT AND CERTIFICATIONS

- Strong Problem Solving in Java. Problem solved 350+ on leetcode and 250+ on GFG
- Generative AI with Large Language Model - DeepLearning.AI
- AI-ML Collaboration with Google Developer
- Advance Learning Algorithms - Stanford

VOLUNTEER EXPERIENCE

- Technical Lead at Rajasthani Club VITB** Sehore, India
Driving digital innovations and enhancing event management through technology. Nov 2023 - June 2024
- Core Team Member at Ramanujan Club VITB** Sehore, India
Organized mathematical and technical workshops for over 1,000 students March 2023 - Aug 2023

HOBBIES

- Hobbies:** Reading, Coding, Playing Crickets

LANGUAGES KNOWN

- Languages:** English, Hindi, Rajasthani
